

Table of Contents

Chapter 1: Marine Geology

Experimental Study on Suspended Sediment Concentration and Powder Bed Deformation under Wave-Only and Wave-With-Current Scenarios.....3

Zhaohui Wu, Bo Yang, Yang He, Fuxiang Huang, Bingchen Liang and Dang Zhao

Experiment Research on Geometry and Evolution Characteristics of Sand Wave Bedforms Generated by Waves and Currents.....9

Xiaohuan Zhu, Zhenlu Wang, Zhaohui Wu, Feilong Liu, Bingchen Liang, Yang He, and Fuxiang Huang

Analysis of the Structure Suffered Submarine Landslides Using SPH and CEL Methods.....16

Qi Lei, Liu Zhenwen, Xu Hao, Deng Haifeng, Li Chun

Chapter 2: Ocean Observation and Information Technology

Analysis and Optimization on the Flow Ability of Wave Buoy Based on AQWA27

Jinpeng Hu, Ling Zhu and Shihui Liu

A Capable Smart Sensor Interface Module for Interoperable Ocean Observatories.....36

Shijun Lin and Feng Lyu

Switching High Voltage DC Power in Branching Units of Large-scale Cabled Seafloor Observatories.....43

Shaoduo Zheng and Feng Lyu

Impacts of Coastal Development on the Shoreline Change of the Eastern Gulf of Thailand.....50

B Bidorn and C Rukvichai

Study on the Influence of Small Attitude Angle on Lidar Wind Measurement Results.....58

Peilin Dou, Xin Zhang, Xiaochen Han, Yangyang Xue

A Method for Estimating the Distance of Near-Ocean-Bottom Sources by Combining VLF Underwater Acoustic Field and Scholte Wave Field.....64

Han Zhao, Guiqing Sun, Hanhao Zhu, Junxin Yuan

Construction Method of Telecommunication System for Corrective Information Distribution.....72

V V Karetnikov, S F Shahnov and A A Ageeva

Chapter 3: Wave Mechanics and Fluid Mechanics

The Experimental Study on the Hollow Wave Dissipation Structure of a Semi-Submersible Embedded Ball Box in the Specification Spectrum Wave.....81

Danian Liu, Zichang Shangguan, Zhiyun Wang

Influence Analysis of Blade Fracture of Ducted Propellers of offshore platforms on Flow Field.....86

L J Ou, W Zhang

Laboratory Study of the Spatial Distribution of Extreme Overtopping Events at Vertical Structures.....93

S Dong and J M Pearson

A Preliminary Study on Numerical Waves and Its Impact on Horizontal Plate Based on Fluent.....102

Jinpeng Hu , Shihui Liu and Ling Zhu

Numerical Modelling of Interaction between Solitary Wave and Sloped Seawall109

Rui You and Guanghua He

Numerical Study on Influence of Water Exchange for Artificial Island Group115

Tao Liu, Yuehong Liu and Zhiqiang Hou

Numerical Simulation of Wind Wave in Bohai Sea Induced by Cold Wave.....122

Chen Chun and Huang Yu Xin

Chapter 4: Offshore and Deep-sea Engineering

A New Concept of Jackup Combined Semisubmersible Multifunction Platform129

T Y Wang

Bayesian-Networks-Based Risk Evaluation Approach of Offshore Platform.....138

Xiaobing Yuan, Baoping Cai, Xiaoyan Shao, Xiangdi Kong, Yonghong Liu

and Guoming Chen

Effect of Touchdown Trench Modelling on SCR Fatigue Life.....146

G. Hu, C. Shi , and Y. Zhao

Effect of Different Rotational Speed on the Cavitation of Deep- Sea Mining Pump under Multiphase Flow.....155

XU Hai-Liang, XU Cong, YANG Fang-qiong and CHEN Wei

Exploration Application of BIM technology on artificial island engineering.....166

DAI CHAO, DONG HAO, ZUO ZHIGANG, ZHAO HAILIANG, SHANG ZHIHUI

Research of Statistical Characteristics of Target Strength of a Single-layer Cylindrical Shell with Random Coating173

Hu Bo

Chapter 5: Marine Environment and Climate

The Effect of Increased Temperature and Coral Acclimation of *Sinularia dura*..... 183

Z S Juhi and K A Rabbani

Numerical Simulation of the Oil Spilling Impact on Water Environment.....188

Shanshan Yao, Peng Zhang and Qixiu Pang

Variation Characteristics of Tropical Cyclones Making Landfall over China between 1951 and 2015 and Their Relationship with ENSO.....196

Chenglin Gu, Jiancheng Kang, Guodong Yan, Zhiwei Chen, Mingxing Niu

The Variation of Extreme Low Temperature Events in the Northwest Pacific under the Global Warming.....204

Zhiwei Chen, Jiancheng Kang, Chenglin Gu, Yong Xu, Ming Tang and Kai Lu

The Climatic Characteristics of Surface Salinity in the South China Sea and the Adjacent Northwest Pacific Ocean.....208

Mingxing Niu, Jiancheng Kang, Zhiwei Chen

Yanliao Beach Nourishment Methods.....	214
<i>Hsing-Yu Wang, Hui-Ming Fang and Yun-Chih Chiang</i>	

Chapter 6: Water Resources Management and Utilization

Influence of Economic Structure Optimization on Water Consumption in Shanxi, China.....	225
<i>Wei Li, Jiahong Liu and Xifeng Wang</i>	

Aquifer/Water Sources Drip Factor as Alternative to Measure Climatic Effects on Disponibility of Water Agricultural Irrigation in Semi-arid/Arid Zones.....	230
<i>Norzagaray-Campos Mariano, Llanes-Cárdenas Omar, Muñoz-Sevilla Patricia, Ruiz-Guerrero Rosario, Ladrón de Guevara-Torres Mar á and Armenta-Cabrera José</i>	

An Examination of the Validity of MRPS Method for the Detection of Label-free E. Coli and Enterococci in Ships Ballast Water.....	237
<i>M M Maw, J S Wang, K Z Yu, Y J Wang, B W Dai, X D Wu and X X Pan</i>	

Research on Status Quo of Water Rights Trading in China.....	246
<i>WANG Xin and YANG Shizhong</i>	

Developing a Portable Hydroelectric Generator Using Axiomatic Design Method.....	253
<i>H Soewardi and E A Putra</i>	

Microbial Protein Enrichment and Treatment of Winery Residue from Fungi and Yeast by Syntrophic Fermentation.....	261
<i>Rui Gao, Qiuying He, Yuanyuan Chen, Yuting Duan, Li Xie</i>	

Utilization of Shrimp Shell Waste as Matrix Controller by Using Ionotropic Gelation Method in Slow Release Fertilizer Based on Environmental Conservation.....	268
<i>W D P Rengga, M A Mubarak, N S Cahyarini</i>	

Kitchen Waste as a Novel Available Substrate for Prodigiosin Production by <i>Serratia Marcescense</i>	276
<i>Shunxiang Xia, Enjelia Veony and Qiyin Yang</i>	

Isolation of Pectin from Carrot Peel as Biosorbent of Pb(II) ion.....283
Budi Hastuti, Saptono Hadi, and Fian Totiana

Chapter 7: Environmental and Chemical Engineering

Functionalization of Recycled Diatomite for Green, Stable, and High-performance Phase Change Material (PCM) Composite.....291
Yeng-Fong Shih, Chih-Hung Wang, Zong-Gi Tson, Yu-Cheng Zhang and Hong-Yuan Lian

Eco-friendly Modification for the Cellulose Nanofibers Derived from Pineapple Leaves for High-performance Nanocomposite.....297
Yeng-Fong Shih, Zong-Gi Tsou, Chih-Hung Wang and Hong-Yuan Lian

An Approach for Analysis of Natural Hazard Impacts on Activated Sludge Wastewater Treatment.....303
P Zlateva and N Dimitrova

Esterification of α -Pinene from Turpentine Oil Using Natural Zeolite Catalyst.....311
N. Wijayati, Supartono and E. Kusumastuti

Research on Green Remediation Technology of Oil Spill By Biosorbent.....317
Dan Peng, Lei Nie, Fan Ouyang, Liuchun Zheng

Fabrication of Superhydrophobic-Superoleophilic Cement-Coated Meshes and Their Applications for Oil/Water Separation.....322
Shude Li, Sun Jing, Jinlong Song and Ziai Liu

Chapter 8: Waterway Transport Management

The Influence of the Storage Strategy on the Complexity of the Container Selection Procedure.....333
A Kuznetsov, A Kirichenko and O Izotov

Chapter 9: Building Materials

Study on the Shear Performance of Different Gradation Types of Asphalt Mixture Based on Triaxle Test.....341
Xiao-yan Wang, Kai Gong and Shi-jie Ma

A Study on Mixing Proportion of Roller-Compacted Concrete Pavement Made of EAF Slag Aggregate and Fly Ash by Using Taguchi Method.....	346
<i>My Ngoc-Tra Lam, Saravut Jaritngam, and Duc-Hien Le</i>	
Author Index.....	355
